

Integrating Special Populations: Seminar Series

“Geriatric Measurements to Assess Disability in Patients of All Ages”

Matthew R. Baldwin, MD, MS

Herbert Irving Assistant Professor of Medicine

Division of Pulmonary, Allergy, and Critical Care Medicine

Critical-Care Director, Pulmonary Intensive Care Translational & Outcomes Research (PICTOR) Group

Columbia University Medical Center

Stephanie Cosentino, PhD

Associate Professor of Neuropsychology

Cognitive Neuroscience Division

Department of Neurology, Taub Institute and Sergievsky Center

Columbia University Medical Center

Patients of all ages now survive what were previously fatal illnesses, but often have disability. We will review important issues to consider when measuring physical and cognitive disability across the lifespan. We will discuss how to consider psychometric assessments of disability tests (i.e. evaluate content, construct, and predictive validity), so that attendees can determine which disability tests are most appropriate for their own patients and clinical studies.

Date: Tuesday, September 19, 2017

Time: 12:00 – 1:00pm

Location: Irving Institute Conference Room (PH 10 – Room 204)

622 West 168th Street, 10th Floor

New York, NY 10032

Preferred RSVP: Dianne C. Frederick, dcf2111@cumc.columbia.edu by September 18
