Serum metabolomics Analysis for Early Detection of Colorectal Cancer

Masaru Yoshida, MD PhD
Associate Professor
Chief, Division of Metabolomics Research
Division of Gastroenterology
The Integrated Center for Mass Spectrometry
Kobe University Graduate School of Medicine
Kobe City, Hyogo, Japan

Establishing new screening methods for early diagnosis of colorectal cancer will improve the quality of life of colorectal cancer patients. One such method, serum metabolome analysis, using gas-chromatography/mass spectrometry (GC/MS), will be discussed.

Thursday, January 10, 2013
12:30 – 1:30p
Irving Institute Conference Room
622 West 168 Street, NYC
PH-10-204
Lunch will be provided
